They continue to support the family members who ask for help to support these memorial services. They work together with the Patriot Guard. They have traveled across the west side of the state to represent the American Legion Department of WA. Which proves that the American Legion Riders are here to support our fallen Veterans no matter where they are needed which reflects great admiration for the American Legion Department of WA. I'm so thankful for the 5th District Riders as well as our Riders from Pasco, Spokane and Wenatchee that have supported these missions when I have called them and asked for support to see that are fallen Veterans have a Honor Guard that they deserve.
